Comments With a verified vehicle/plant weed hygiene inspection certificate, the driver/operator is authorised to enter worksites as long as a valid copy of this report is kept within the vehicle and/or mobile plant. This report shall be available to view upon request in the CertMate application or if printed. This report may be declared void if any land owner or authorised representative of land owner declares that the vehicle/mobile plant can no longer be deemed to be clean and free from organic materials. This report remains valid as long as the following conditions are met: 1. The Vehicle and/or Mobile Plant does not travel off formed roads. 2. The Vehicle and/or Mobile Plant if operating off road stays within the designated work area. 3. The Vehicle and/or Mobile Plant does not come into direct contact with declared weeds. 4. The driver/operator does not operate the Vehicle and/or Mobile Plant after coming into direct contact with declared weeds.
